

## Collin County Day in Austin

# SUPPORT FOR WATER INITIATIVE

We support Texas' 2007 State Water Plan. We support keeping this plan intact during the legislative session and will oppose any legislation that removes any water management strategies from the plan. Additionally, we support:

- Encouraging the Texas Legislature to designate for protection all remaining viable reservoir sites of unique value for the construction of future reservoirs as identified in the 2007 State Water Plan.
- Statutory provisions that eliminate unreasonable restrictions on the voluntary transfer of surface water from one basin to another (Amend Texas Water Code, Section 11.085).
